## SUMMARY

---

Motivated and skilled Associate Software Engineer with 1 year of professional experience in a startup environment. Self-taught Angular developer, successfully working on both frontend and backend development, debugging, testing, optimization, and documentation. Demonstrated ability to independently acquire new skills and apply them effectively. Successfully transitioned from an intern to a full-time Associate Software Engineer within the same startup, showcasing dedication and exceptional performance. Collaborative team player with a passion for delivering high-quality software solutions.

## KEY SKILLS

---

- **Full-Stack Development:** Proficient in frontend and backend development using Angular, with hands-on experience in designing and implementing user-friendly interfaces and scalable backend solutions.
- **Problem-Solving:** Skilled at troubleshooting and debugging complex issues, ensuring smooth software functionality and optimal performance.
- **Independent Learning:** Demonstrated ability to independently learn and use Angular, showcasing a self-driven and proactive approach to professional development.
- **Testing and Optimization:** Experienced in conducting thorough testing and implementing performance optimizations to deliver robust and efficient software solutions.
- **Documentation:** Proficient in creating clear and comprehensive technical documentation to facilitate understanding and maintainability of software projects.
- **Startup Experience:** Adapted well to a fast-paced startup environment, displaying flexibility, resourcefulness, and the ability to multitask effectively.

## TECHNICAL SKILLS

---

- |              |                   |                       |
|--------------|-------------------|-----------------------|
| • Angular    | • PHP             | • Android Development |
| • TypeScript | • C++             | • MySQL               |
| • Java       | • Firebase        | • Sequelize           |
| • JavaScript | • TailwindCSS     | • REST APIs           |
| • AstroJS    | • Ionic Framework | • Agile Development   |

## PROFESSIONAL EXPERIENCE

---

**STAT Health Ventures Inc. (Remote)**  
*Associate Software Engineer*

**Manila, Philippines**  
October 2022 – October 2023

- Successfully collaborated with cross-functional teams to achieve the design, development, and maintenance of scalable and responsive user interfaces, resulting in an outstanding user experience.
- Implemented performance optimizations that significantly enhanced software functionality and improved overall system efficiency; utilized Sonarqube for comprehensive code quality analysis.
- Produced detailed technical and code documentation, streamlining maintenance and facilitating future development processes.
- Conducted rigorous testing and debugging across diverse browsers and devices, ensuring a seamless and user-friendly experience for all visitors.
- Actively contributed to agile development processes, fostering a collaborative and dynamic work environment.
- Demonstrated adaptability by quickly adjusting to changing requirements and priorities, showcasing flexibility and the ability to handle multiple tasks simultaneously.

**STAT Health Ventures Inc. (Remote)**  
*Software Engineer Intern*

**Manila, Philippines**  
March 2022 – May 2022

- Independently revamped company website to ensure seamless cross-platform compatibility, resulting in enhanced user experience on both desktop and mobile devices.
- Implemented key features, with a focus on a user-centric support page, facilitating the collection and categorization of user concerns and incidents related to the app.
- Designed a mockup for an upcoming mobile project, showcasing a keen understanding of UI/UX principles and aligning the design with the company's brand identity.
- Conducted rigorous testing and debugging across diverse browsers and devices, ensuring a seamless and user-friendly experience for all visitors.
- Actively contributed to agile development processes, fostering a collaborative and dynamic work environment.

**Visvis Logistics Services (Remote)**  
*Data Entry Clerk*

**Quezon City, Philippines**  
January 2021 – February 2022

- Successfully managed and updated a large volume of confidential and sensitive information while maintaining strict confidentiality protocols.
- Achieved a consistently high level of accuracy in data entry, maintaining a 99.5% error-free record throughout the tenure.
- Proactively identified and addressed potential data entry challenges, preventing errors before they could impact overall data accuracy.
- Demonstrated adaptability by quickly learning and integrating new data entry software and technologies.

## EDUCATION

---

**Cavite State University - Don Severino Delas Alas Campus**

Bachelor of Science in Information Technology

April 2023

- Capstone Project: Android-based Mobile E-Clearance System

## PERSONAL INFORMATION

---

**Nationality:** Filipino

**Date of Birth:** March 18, 2000

**Gender:** Male

**Civil Status:** Single

**Visa Status:** Tourist Visa

**Language:** English, Tagalog
